General and Revenue Secretariat

G. G File No.

Serial No.

1 Letter No. P.623 dated 2/6/32 from the Dy. Director of Horticulture requesting in the circumstances explained sanction for the estimate for Rs 3770/- for providing electric light to the three main bungalows on the Nandi Hills station and also requesting that no minimum be charged but only the actual current used as it would not be possible to recover any charges when the bungalows are unoccupied.

The Director states that there is no provision in the Depttl budget to meet the cost. The budget for 1932-33 has been provisionally fixed as it is not known whether a sum of about Rs 3500/- will be available for the purpose in the present financial stringency.

2) In his letter to the Director (Consulting Architect also) the Chief Electrical Engineer states that special orders have been passed permitting the not to charge minimum for Govt. buildings whenever it is thought necessary.

Submitted for orders

Hrs 8/6/32 SAM 8.6.32 3) The estimates have not been sent. The Dir. wants an additional grant during the current year. The H. Dept. may be consulted about this. It is, however, doubtful whether the work can be completed during this year.

4) As regards the maintenance charges, the further report promised may be awaited by Gen. Dept 9/6

proposed
amount, to be met by the Gardens' Dept.
Rs 3770 for installation of electric light in the 3 main bungalows, viz., Cuddon, Glendale, Oaklands, and Rs 180 being the royalty at Rs 22-8-0 each. 180 f.a.
light
at the several lights. The estimates have also been forwarded.

The Supdt. G.G., agrees that the expenditure Rs 3770 is a legitimate charge on his dept. and wants a separate grant for the purpose. Lake Dist. of Horticulture, who started correspondence, also recommended that the levy of the minimum charge for the bungalows might be waived and only the actual consumption charges be levied. (Cl. 1). The Electrical Consl. may be consulted about this.

As regards the royalty of Rs 180 f.a., the Supdt. says that as some of the street lights will be inside the Mill Station area, and as the others also benefit the large no. of pilgrims who visit the temple on the hill, the cost should be met in equal proportions by the Gardens dept., Dt. Bd., Kolar, and the Muzrai dept. The Board are said to be not agreeable to bear proportion of the cost. The Muzrai dept. may be consulted as regards their quota.

The cost of Rs 9761 for running power lines in Chikkaballapur to the Mill and providing a transformer centre will, apparently, be met from budget of the Electrical dept. (vide Flag Z)

relation of 5% on the Capital outlay charges the same to the General Revenues. Mungrai Dept, Hill Stations Dept and the Dt Board of Kolar.

31) The proposals of the Superintendent are:-

1) Rs 9761/- being the cost of running power lines to the Stations should be borne by the General Revenues, the Mungrai Dept. the Hill Stations, and the Dt Board

2) Rs 3770/ being the cost of interior lighting to be met by the Hill Stations

3) The interior Consumption Charges to be met by the Hill Stations Dept

4) Royalty on eight street lights viz Rs 180/- etc to be met by the Mungrai Dept, Hill Stations & the Dt Board.

32) The Dt Board is not agreeable to pay either royalty or the cost of installation. Flag H.

33) The Mungrai Dept is agreeable to pay half the cost of the royalty viz Rs 90/- but not agreeable to pay the cost of installation Flag K

34) The Electrical Dept is not agreeable to waive the recovery of the minimum if the cost of installation is to be met by them. But if the same is met out of their budget, they are agreeable to be paid on the basis meter basis of Consumption of electrical energy. Flag R

35) As either the Mungrai Dept or the Dt Board is not agreeable to share the cost of

installation the whole amount of Rs 9761/- will have to be met from the Gen Revenues & Hill Stations

The royalty on electric light will be shared equally by the Bungalow Dept & the Hill Stations

Thus the Hill Stations have to bear Rs 8651/- (3720/- of interior installations and Rs 4881/- being half the cost of Rs 9761/-) as initial cost and Rs 90/- as royalty plus the actual Consumption charges of the lights in the bungalows as recurring cost.

36) In this connection it is not known what the term "General Revenues" expressed by the Supdt. means. If the term does not mean the electrical Dept. the remaining cost of Rs 4881 has also to be met by the Hill Stations thus bringing the total initial cost to Rs 13531/-

37) The Supdt. suggests an alternative proposal of the Electrical Dept meeting the whole cost of Rs 13531/- and they being paid a return of 5% on the outlay charging the same to Gen Revenues Bungalow Dept, Hill Stations and the Kolar Gt Rocks. The 5% return will come to about Rs 680/- to be shared by the Depts ~~Concerned~~ refd to above. It is not known whether this proposal is acceptable to others. (Evidently the Dy Bd is not agreeable to pay anything).

38) The budget for 1933-34 having already been fixed, no provision can be made now ~~for this~~ It is also doubtful whether any reappropriation of sanctioned grants will also be possible to

NOTE—Contn. Sheet.

make available a sum of Rs 13531/-

Submitted with references for orders

Hd 2/6/33 5.6.33 SR 5.6.33

This Scheme of electrification of the Nandi Hill Station involves a cost of about Rs. 13531/-. There is evidently difficulty as to the sharing of the cost, by others also i.e, by the Kolar Dt. Bd, the Muz dept, & the General Revenues, in addition to the Gardens dept. In fact the Kolar Dt. Bd is not agreeable to pay either towards royalty or ~~Cost~~ installation cost. The Muz dept is agreeable to pay only half the royalty, (i.e, 180/2 = Rs 90 p.a), but not to contribute towards the Capital cost. As to what the Supt. means by General Revenues, it is not clear, & there is no promise or Commitment by Govt or other dept in this respect.

The budget for 33-34 is fixed, & even if the cost is to be apportioned, there is no provision or easy possibility of finding the required amount by reappn, in the Gardens dept for the purpose, seeing that, in view of the financial situation, the grants have been limited to the absolute requirements. The same is practically the position in other depts also.

This item cannot be said to be an urgent obligatory one, either, in the present financial situation. ~~The Supt himself~~ Neither can it ~~regarded~~ as ~~does it seem to be~~ a paying Concern The Supt, himself, sees this & says in his letter that 'the Electrification of the Nandi Hill Station cannot altogether be considered as a Commercial

Development Department,
Bangalore.

Subject:-Providing Electric Lights to the Bungalows at Nandi Hills.

---

Sir,

I have the honor to state that the Chief Electrical Engineer to the Government of Mysore, has submitted three Estimates amounting to Rs. 3,770/- for providing Electric lights to the three Main Bungalows on the Nandi Hills viz., Cubbon, Glentilt and Oaklands. This is in accordance with Government order for providing electric lights? on the Hill and the amount estimated is necessary.

2. As regards the charges required for maintenance, the Chief Electrical Engineer was consulted in the matter and a copy of the reply received from him in the matter is enclosed herewith for your information In these circumstances, I request you to be so good as to obtain the Sanction of the Government to the estimates and for the sum of Rs. 3,770/- at an early date so that the work may be started and completed during the current year, and also direct that no minimum should be charged but only the actual current used as it would not be possible to recover any charge when the Bungalows are not in occupation. There is no source in this Departmental Budget.

3. The actual amount required for the payment of charges, etc, will be intimated to Government after ascertaining the exact amount from the

Letter No. 75163 dated 31st May 1932 from the Chief Electrical Engineer, Bangalore, ~~the~~ to the Consulting Architect with the Government of Mysore, Lal-Bagh, Bangalore.

---

Sir,

Lighting of the bungalows at Nandi Hills.

With reference to your D.O.No. T. 602 dated 26/28th May 1932, I have the honor to inform you that in the usual course we charge minimum for every building that is electrified and we do not make any reduction in the minimum if a part of the house is unoccupied. At the times when the houses are completely unoccupied, the installation is disconnected if a written notice is received and again reconnected after payment of reconnecting fee of Re.1/-. But for Government buildings, Government have from time to time issued special orders not to charge minimum wherever they think it is necessary. So I suggest that you approach the Government in this matter and if the Government direct that no minimum should be charged, we will not do so.

Subject:- Electrification of Nandi Hills.

---

Sir,

Adverting to your letter No. E.D.S. 1721 dated 2nd instant enquiring whether this Department would bear the cost of putting up Electric lights to the five buildings on the Nandi Hills as also the Royalty of Rs 120/- per annum, I have the honor to state that the Chief Electrical Engineer having already sent to this office 3 copies of estimates submitted by him to Government amounting to Rs 3,770/- for putting up lights in only 3 bungalows viz., Cubbon's Cunningham and Glentilt Bungalows, I have already written to Secretary to Government Development Department to Sanction the sum and to provide the actual amount required for payment of consumption charges after ascertaining from the Electrical Department.

2. Now it is seen from your letter under reference that the Chief Electrical Engineer has submitted estimates amounting Rs 9,761/- for putting up lights in all the five bungalows. It is therefore no clear whether the amount required is for putting up lights in Five

P. T. O.

Kove Burgalow[illegible]ly or whether it includes for the outside walls also. On receipt of the information, Government will be addressed in the matter of Sanctioning the sum of Rs 9,761/; instead of Rs 3,770/ and also for the payment of the Royalty amounting to Rs 120/- per annum.

I have the honor to be,

Sir,

Your most obedient servant,

1 JUL 1932

The Secretary to the Government of
His Highness the Maharaja of Mysore,
Development Department,
Bangalore.

Subject:- Electrification of the Nandi Hill.

---

Sir,

With reference to your letter No.E.5023/G.G.59-31-3 dated 21/22 instant, I have the honor to submit herewith three estimates received from the Chief Electrical Engineer for providing Electric lights to the three Bungalows (a) Cubbon House (b) Oaklands and (c) Glentilt in the Nandi Hill Station and to request that Sanction of Government may kindly be obtained thereto and the sum of Rs 3,770/- be provided in the budget of the Nandi Hill Station for 1932-33. I have also asked the Chief Electrical Engineer to send an estimate for providing lights in the other two Bungalows as well, viz, Browns and Sankeys and will submit for sanction as soon as they are received. As regards the definite information in the matter of maintenance charges, I beg to state that from the enclosed copy of letter No. 75767 dated 20th June 1932 from the Chief Electrical Engineer to the Secretary to Government Electric Department, it will be seen that the annual consumption charges will be as per actual rating.

2. It is seen from the above copy of letter that the Chief Electrical Engineer has submitted another estimate amounting to Rs 9,761/

P. T. O.

for running Power lines from Sultanpet, Nandi Hills and to provide transformer centre for feeding the Bungalow lights and fixing up the street lights required. I am asking him to send a plan showing the lights and will submit my report further in the matter. After the estimate is sanctioned a sum of Rs. 120/- being the Royalty has to be paid for and the sum of Rs. 9,761/- will have to be met from "Interior Power and Lighting" as suggested by the Chief Electrical Engineer.

3. I am also asking the Chief Electrical Engineer to send an estimate for fitting up Electric Motor pump to supply water to all the Bungalows and will submit to Government the estimate and the proposal separately in the matter.

I have the honor to be,

Sir,

Your most obedient servant,

Director of Horticulture.

Letter No. 75767 dated 20th June [redacted]ief Electrical Engineer, to the Secretary to the [redacted]nment of Mysore, ~~Development~~ Department, Electrical Department, Bangalore.

---

Sir,

Electrification of Nandi Hills.

With reference to your letter No. 1807 dated 15th June 1932, I have the honor to inform you that the estimate submitted to you for Rs. 9,761/- is for running power lines from Sultanpet to Nandi Hills and to provide a transformer centre for feeding the bungalow lights and fixing up the street lights required. But the estimate that was sent to the Director of Horticulture was for lighting up three bungalows viz., Cubbon's, Cunningham and Glentilt. This covers the work that has to be done inside the building and as such has to be paid by the Garden Department. The above estimate for the interior work of the bungalows was sent to the Director of Horticulture as desired by him and the other two bungalows were not included. Hence the Garden Department has to pay the cost of interior work of all the bungalows that are to be lighted in addition to the annual consumption charged of these bungalows as per actual rating. They will have also to pay us the royalty on the number of street lights required by them. If that is done, the estimate for running power lined amounting to Rs. 9,761/- will have to be sanctioned by Government under "Interior Power and Lighting". I hope the point is clear now.

Sd/- V. R. Cowsik,
Chief Electrical Engineer I/c.

Copy to the Director of Horticulture in Mysore, Bangalore, with compliments, for information. Estimate for the interior work of electric lighting of the other two bungalows that are on the Hills will be sent if desired.

VSR.

Report to accompany th
lights to the 3 main bungal
(3) Oakland Cunningham at N

The three estimates are prepared for providing electric lights and wall plugs for the 3 bungalows i.e. (1) Cubbon, (2) Glentilt and (3) Oakland Cunningham at Nandi Hills.

1. Cubbon's Bungalow, provides for 47 rigid steel pendents, 7 brass bracket lights, 2 bulk-head fittings, 19 wall-plugs. The interior wiring will be done by using lead covered, twin conductor Henley's wire as the place would be very wet during rainy seasons for avoiding moisture. The rigid electric - fittings have also been provided in the estimate since the weather will be stormy and windy during rainy seasons. Further, a lightning arrester is also included in the estimate to avoid lightning for the installation.

A suitable distribution board, with necessary controlling circuit and main switches are also provided in the estimate.

The one sketch shows 1st floor lighting outlets and the - other showsground-floor lighting outlets.

2. Glentilt Bungalow, provides for 14 rigid steel pendents, nine brass bracket lights, 1 bulk-head fitting, 3 water-tight - fittings and 6 wall-plugs. The wiring will be done by using - lead covered twin conductor Henley's wire with suitable distribution board etc., The provision is also made for overhead line by providing S.M.rails and No.6 B&S copper wire cross arms,etc.,

3. Oakland (Cunningham) Bungalow, provides 38 rigid iron pendents, 1 brass-bracket light, 2 bulk-head lights, 3 water-tight fittings and 10 wall plugs. The wiring will be done by - using lead covered twin conductor Henley's wire with suitable distribution board etc., The provision is also made for overhead line by providing S.M.rails plus No.6 B&S copper wire and cross arms etc.,

The

The sketches enclosed herein will show the lighting and wall-plug fixtures. The overhead line could not be shown in the sketches as the route of Departmental lines is not yet decided finally.

Development Department,
Bangalore.

Subject:-

Electrification of Nandi Hill.

---0---

Sir,

In continuation of this Office letter No.661 dated 30th June 1932, I have the honour to state that the Secretary to Government, Electrical Department has enquired whether this Department is agreeable to pay the royalty amounting to Rs 180/- per annum on eight street light proposed to be installed on the Nandi Hill.

The President Kolar District Board who was consulted in the matter states that the Board is not responsible for defraying the --- Electrification charges.

In connection with the question of meeting the charges of the Electrification of the Nandi Hill, street lighting on the Hill and --- interior lighting of the buildings in the Hill Station, and the payment of the royalty on the street lights and annual consumption charges in the buildings, I beg to submit, for the consideration of the Government, the proposal that the expenditure may be met by the different concerned Departments.

Received

General No.
No.

Enclosure No.

1. The Sum of Rs 9761/- for running power lines from Sultanpet to Nandi Hill and for providing a transformer centre for feeding the Bungalow lights and fixing up the street lights :-

Since the Buildings have to be maintained even if the Hill Station were not in existence and since Nandi Hill is a place of -- historic interest which is visited by lot of people and a place of pilgrimage where there is a large and famous temple, the expenditure of this sum of Rs 9761/- may be met from the General Revenues, the Muzrai Department and the Hill Station Department in equal proportions.

2. The cost of interior lighting amounting to Rs 3,770/- and consumption charges on actual rating:-

This expenditure is a legitimate charge on the Hill Station Department, and the provision of the sum in the Budget has to be made.

3. Royalty on street lights:- Rs 180/- per annum.

Since the Temple of Yoganandiswara on the Nandi Hill is -- connected with the Temple of Bhoganandiswara in the Nandi village at the foot of the Hill, and as a large number of pilgrims use the flight of steps between the two, the payment of the royalty on street lights from Sultanpet to the Temple may be divided equally among the Muzrai Department, the Hill Station Department and the District Board of Kolar Some of the street lights will be outside the Hill Station area.

I request that ~~necessary~~ the sanction of Government may kindly be obtained in the matter of the payment of the different items of expenditure by this Department, and that necessary provision of funds m may kindly be made in the Budget of the Nandi Hill Station for the -- current year.

I have the honour to be
Sir
Your most obedient servant,

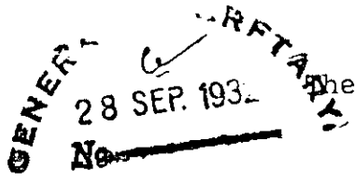
To



The Secretary to the Government of
His Highness the maharaja of Mysore,
General Department, BANGALORE.

Subject.- Electrification of Nandi Hills.

Sir,

With reference to correspondence ending with your letter No. E.1076 G.G. 59-31 dated the 22nd September 1932 on the above subject, I have the honour to inform you that the estimate sent up by the Chief Electrical Engineer for electrification of Nandi hills amounts to Rs 976 The estimate provides for giving 8 street lights. The expected return from the scheme is Rs 300/- made up of Rs 180 being royalty at Rs 22-8-0 per light on 8 street lights and of Rs 120/- from 5 bungalows installations on the assumptions of a revenue of Rs 2/- per month from each of the Bungalows. Deducting maintenance charges of Rs 110/- per year the net revenue will be only Rs 190/- giving a return of less than 2 per cen The project is thus very unremunerative and it is doubtful if it will b sanctioned by Government for execution from the Electrical Budget. If the minimum charge for the Bungalow lights is also waived, the return from the scheme will get further reduced. I am therefore not in favour of waiving the minimum charges. If, however, the amount of Rs 9761/- required for electrification be met as proposed by the Director of Horticulture in his letter dated the 20th July 1932 to the Development Secretary, the Electrical Department will perhaps be satisfied, if it i paid on meter basis for electrical energy consumed for street lights an Bungalows installations (without minimum charges).

2. A copy of the Chief Electrical Engineer's letter No.79161 dated the 23rd instant is herein enclosed; it will be seen that the Chie

Chief Electrical Engineer is prepared to meet initial cost of the work if 5 per cent return is guaranteed.

I have the honour to be,

Sir,

Your most obedient servant,

S. Srinivasa Aiyar
20/1

Secretary to Government,
ELECTRICAL DEPARTMENT.

Letter No.79161 dated the 23rd September 1932, Electrical Engineer to the Government of Mysore, Bangalore, to the Secretary to Government, Electrical Department, Bangalore.

---

ELECTRIFICATION OF NANDI HILLS.

With reference to your letter No.386 dated 14th September 1932 enclosing a copy of letter from the General Secretary to Government, I have the honour to inform you that the estimate for the supply of power to Nandi Hills was prepared only for the sake of lighting the Hill Station buildings and also providing street lights as desired by the Director of Horticulture. As there is no other source of revenue from this scheme, the revenue received from the Department of Horticulture must make up the necessary return on the capital expenditure of Rs.9,761/-. Hence it was proposed to levy the usual charges on the street lights and also the necessary minimum on the bungalow installations. If the minimum on these installations is waived, I am afraid the revenue will not come up to 5% on the capital expenditure. If 5% revenue is guaranteed, the initial cost of the estimate will be met by the Electrical Department. The question of levying the minimum charges may be considered by Government in the light of my above ---- remarks.

---

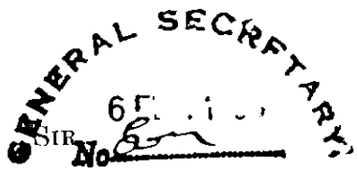
R. Ranga Rao, Esq., B.A., B.L.,
General *Secretary to the Government of His Highness*
*the Maharaja of Mysore.*

.....*Department*xx



SIR,

With reference to correspondence ending with your letter--- No.E.1386/G.G.59-31-9 dated 19th October 1932 in the matter of the temples at Nandi meeting a portion of the cost of running power -- lines up the Nandi Hills, I have the honor to state that the Dharmadarsis of the temple are agreeable to pay the royalty of Rs.90/- per annum, suggested in your letter dated 5th September 1932 ----- provided the line is run along the road from Chikballapur to ----- Nandi, with a view to have temporary lights during the Jatra season

2. As regards meeting 1/3 of the initial cost of running up the power line and providing a transformer centre, the Dharmadarsi have resolved at their meeting held on 21st November 1932 that no portion of this expenditure can be spared from the temple funds. The Deputy Commissioner agreeing with them states that the temple should not be saddled with any portion of the capital cost. I agree with the opinion expressed by the Deputy Commissioner.

3. Copies of letter Nos. 2-C.630 of32-33 dated 17th November 1932 and 6th January 1933 from the Deputy Commissioner District -- together with the connected vernacular file are enclosed for ----- reference and early orders.

I have the honor to be,
Sir,
Your most obedient servant,

For Muzrai Commissioner.
Absent on casual leave

Subject Electrification of Nandi Hills.

With reference to correspondence ending with your letter No.E. 1076/G.F.59-31-dated.the 22nd September 1932 on the above subject I have the honor to inform you that the estimate sent up by the Chief Electrical Engineer for electrification of Nandi Hills amounts to Rs.9761/-. The estimate provides for giving 8 street lights. The expected return from the scheme is Rs.300/- made up of Rs.180/- being royalty at Rs.22-8-0 per light on 8 street lights and of Rs.120/- from bungalow installations on the assumption of a revenue of Rs.2/- per month from each of the Bungalows. Deducting maintenance charges of Rs.110/- per year the net revenue will be only Rs.190/- giving a return of less than 2 per cent. The project is thus very unremunerative and it is doubtful if it will be sanctioned by Government for execution from the electrical budget. If the minimum charge for the Bungalow lights is also waived, the return from the scheme will get further reduce I am therefore not in favour of waiving the minimum charges. If, however, the amount of Rs.9761/- required for electrification be met as proposed by the Director of Horticulture in his letter dated the 20th July 1932 to the Development Secretary, the electrical department will perhaps be satisfied, if it is paid on meter basis for electrcal energy consumed for street lights and Bungalow installation(without minimum charges).

2. A copy of the Chief Electrical Engineer's letter No.79161 dated 23rd instant is herein enclosed; it will be seen that the Chief Electrical Engineer is prepared to meet initial cost of the work if 5 per cent return is guaranteed.

---

Letter No.79161 dated the 23rd September 1932 from the Chief Electrical Engineer to the Government of Mysore,Bangalore to the Secretary to Government, Electrical Department, Bangalore

Electrification of Nandi Hills.

With reference to your letter No.386 dated 14th September 1932 enclosing a copy of letter from the General Secretary to Government, I have the honor to inform you that the estimate for the supply of power to Nandi Hills was prepared only for the sal

ting the Hill Station buildings and also providing
s as desired by the Director of Horticulture. As there is no other source of revenue from this scheme, the revenue received from the Department of Horticulture must make up the necessary return on the capital expenditure of Rs.9761/-. Hence it was proposed to levy the usual charges on the street lights and also the necessary minimum on the bungalow installations. If the minimum on these installations is waived, I am afraid the revenue will not come up to 5% on the capital expenditure. If 5% revenue is guaranteed, the initial cost of the estimate will be met by the Electrical Department. The question of levying the minimum may be considered by Government in the light of my above remarks.

---

Installation of Electric Lights on the Nandi Hills.

---

With reference to your Memo No.1292 dated 2nd March 1933 forwarding copies of the letters of the General Secretary to Government and also the Kuzrai Commissioner in Mysore, I have the honour to inform you that the villages of Nandi and Sultanpet have already been lit up with electricity and during this jatra season temporary lights were given to the shops that are inside the compound of the temple and the temple was also temporarily lit by electricity. The estimate under consideration of Government is for extending the lines from the village of Sultanpet to the top of the hill.

Another estimate for running irrigation line to a place nearby has been sanctioned and the existence of this line will enable the temporary shop-keepers outside the compound to obtain electric lighting during the jatra season commencing from next year.

With regard to the other estimate called for by the Horicultural Department for lighting the two other bungalows on the top of the hill, it will be submitted as soon as it is received from the Superintendent, Power and Light, Bangalore.

Subject:-
Electrification of Nandi Hill Station.

Sir,

With reference to your letter No. E 1387/G.G. 59-31-9 dated 19th October 1932 calling for my opinion in respect of the proposal of the Chief Electrical Engineer for installing Electric lights in the Nandi Hill Station, I have the honour to submit that the Chief Electrical Engineer states that if a revenue of 5% on the capital expenditure is guaranteed, the initial cost will be met by the Electrical Department. If the cost of the scheme is distributed among the various concerned departments as suggested in my letter No. T 43 dated 20th July 1932, the question of guaranteeing a return of 5% will not arise.

The following proposals were made in the above letter giving reasons in each case :-

1. The sum of Rs 9761/- required for running Power lines from Sultanpet to Nandi and for providing a transformer centre for feeding the bungalow lights and fixing the street lights is proposed to be met from the General Revenues, the Muzrai Department, and the Hill Station Department in equal proportions.

2. The cost of interior lighting amounting to Rs 3770/- and consumption charges on actual rating will be borne by the Hill Station Department.
